Universitas Bina Nusantara - Bandung, Indonesia

Jun 2020 - Nov 2025 (Expected)

Bachelor of Computer Science, 3.40/3.71

- Developed mobile applications using Unity as a Game Engine.
- Designed and implemented databases using SQL.
- Successfully completed mobile and web application development projects on time and within budget.
- Identified and resolved critical software bugs.
- Developed mobile applications for the Android platform.
- Proficient in programming languages (Python, C#, C++, C).
- Obtained professional certifications in information technology.
- Experienced in using development tools (VS Code, Unity, Git, GitHub, MySQL, Oracle Database, Jira, Trello).
- Led a team of 4 students in developing an Android-based mobile application using Unity to simulate car rim and tire fitting. This application uses a MySQL database to store rim and tire data, as well as augmented reality features to display 3D visualizations of rims and tires on cars.

Organisational Experience

UKM Band - Bandung

Mar 2021 - Feb 2022

Public Relations

As a member of the Public Relations team for the campus Band Club, I take an active role in managing the club's social media channels, creating promotional materials, and fostering engagement within the university community. My responsibilities include organizing event promotions, collaborating with other organizations, nurturing relationships with sponsors and media partners, and documenting performances and activities. This experience has allowed me to refine my communication, branding, and networking abilities while enhancing the club's positive reputation and ensuring successful events.

- Develop communication and publicity strategies to enhance the band's image and popularity.
- Manage and update the band's social media content (Instagram, Twitter, Facebook, etc.).
- Create press releases and other promotional materials (posters, flyers, banners, etc.).
- Build and maintain relationships with media outlets (print, online, radio, television) to secure positive coverage of the band.
- Organize press conferences, media events, and other media relations activities.
- Monitor and respond to public comments or feedback about the band.
- Evaluate the effectiveness of publicity efforts and provide recommendations for improvement.

UKM Band - Bandung

Mar 2022 - Apr 2023

Activist

As an active member of the campus Band Club, I participate in regular practice sessions, collaborate with fellow musicians, and contribute

to organizing musical events. My role includes performing in campus events, assisting in event planning, and fostering creativity within the team. Being part of the club has enhanced my teamwork, leadership, and musical skills while allowing me to share my passion for music with the university community.

- Actively participate in the band's activities and work programs.
- Assist the band's PR in implementing communication and publicity strategies.
- Represent the band at internal and external campus events or activities.
- Contribute ideas and input for the band's development.
